

MULTHAUSEN Re-taken at Bayonet's Point

ENGLISH COMMERCE NORMAL, GERMANY'S PARALYSED, SAYS REPORT TO BRITISH EMBASSY

"Silent Victory" of North Sea Best Exemplified by a Fact That Lloyd's War Risk Falls to Forty Shillings Per Cent for Voyages of British Vessels.

Washington, Aug. 20.—The British embassy here today received from its foreign office a summary of the naval situation to date. Col. Ville Barclay, the chargé d'affaires, sent a copy to Secretary Bryan. It follows:

"Since the declaration of war the fleet has been responsible for the safety of the expeditionary force, which completed its disembarkation into France on August 16, which was effected in perfect order and without a casualty. The work of the navy in the Atlantic and elsewhere in safeguarding the trade routes is best exemplified by the fact that at Lloyd's yesterday the war risk rate fell to 40 shillings per cent. for almost any voyage of British vessels, whereas the rate to insure freight of corn paid by steamers from the United States to a British port is 50 shillings per cent."

"The German fleet outside the Baltic is confined to harbors. English commerce is almost normal. German sea-borne commerce is paralyzed. The only casualty is the loss of the light cruiser Amphion, blown up by a mine after having sunk the German mine layer Koenigslauke."

"One German submarine has been sunk in the North Sea."

OPTIMISM A NEED BUT SOMETIMES A HARMFUL ELEMENT

Subject is Handled in Masterly Manner by Professor Lehmann.

INDUSTRIAL LUNCHEON SCORES NEW SUCCESS

God Speed is Given to Soldiers on Eve of Departure for the Front

In a manner particularly timely, Professor Lehmann, of the University of Alberta, discussed the subject of optimism at Thursday's luncheon of the Edmonton Industrial association.

He dealt with the various phases of optimism in an interesting and practical manner, and declared that much harm resulted to municipalities because of unjustified enthusiasm. He cited a number of instances where good farms situated close to large cities, had been abandoned following purchase by real estate agents, with the idea of planting them for suburbs, and the city falling to grow outwardly to the farm, the latter had been destroyed and had become an eyesore and a constant reminder that the city had overdone itself. He said that it is poor advice to build for a city to be surrounded by a belt of abandoned farms which are only a contributing center for seeds of weeds.

Professor Lehmann emphasized the point that it is the province of these days of the future of a city to encourage farm development by maintaining a bureau where information may be furnished to those desiring to engage in farming and to instruct prospective farmers as to the product best adapted to their immediate vicinities.

The speaker commended everything that conduces to municipal progress, but he declared that optimism not accompanied by good judgment often did more harm than lack of enthusiasm. The luncheon was attended by a number of officers and men attached to the 10th Dragoons and the 101st Regiment, and with a spontaneous outburst of good feeling they were given a sincere God speed. Major Watts responded in a happy vein and suggested that the boys at the front be given a thought once in a while during the week luncheon. George M. Hall aroused a spirit of patriotism in a short tale concerning the departing soldiers and the impulse which guided their action in taking up arms in support of the principles involved in the war.

The musical program was highly enjoyable and included besides a number of instrumental selections a song by Leonard Brockington, of the city hall staff, and by Mr. Pridgen.

WHERE TO GO TONIGHT.
Diamond park—Baseball, Edmonton vs. Medicine Hat, last home game of league season, 6 p.m.
Empire theater—"Last Days of Pompeii," 8:10 p.m.
Pantages theater—Vaudeville, 8:20 p.m.
Lyceum theater—"The Private Secretary," 8:30 p.m.
Empress—Bibou and Dream, 8:30 p.m.
Grand theater—Photo plays all evening.

ALBERTA'S GIFT IS HIGHLY APPRECIATED.

The following telegram was received today by his honor Lieutenant-Governor Bulver, from Premier Sir Robert Borden, in acknowledgment of Alberta's gift of 500,000 bushels of oats to the Netherlands:

Ottawa, Ont., Aug. 19, 1914.

His Honor,
The Lieutenant Governor of Alberta, Edmonton, Alta.

His royal highness the governor-general has received a cable from his majesty's government stating that they highly appreciate and gladly accept the five hundred thousand bushels of oats offered by the government of Alberta and they desire him to convey the expression of their thanks to your honor.

For reasons which have been explained in a telegram to the Premier of Alberta the offer was unfortunately not communicated to his majesty's government until the 17th August, and for this reason their reply was not received at an earlier date. The government desires to express to your honor their great regret that this delay should have occurred.

R. L. BORDEN.

VERY HEAVY FLOW OF GAS STRUCK AT LAKE MATAWAN

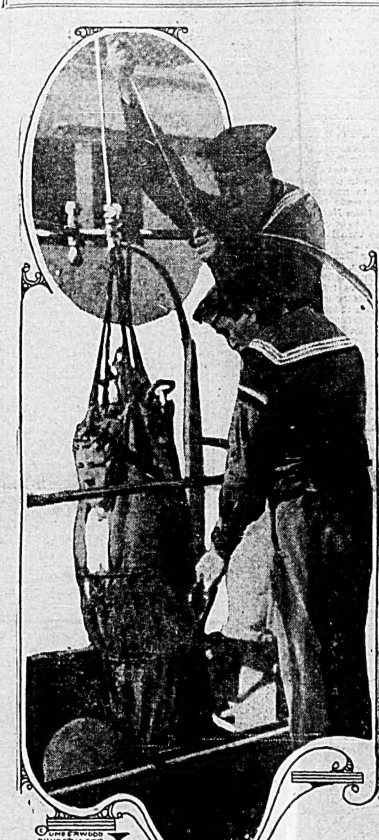

Experts State that Half Million Cubic Feet Daily Will be Average

The war clouds are pretty thick these days. They have obscured almost everything else, otherwise more attention would have been attracted by the big strike of gas which was made the other day about 21 miles from Edmonton and 8 miles northwest of Morleyville on Lake Matawan. Experts claim the flow will average 500,000 cubic feet of gas per day which is the largest in the province at the depth. The drill is down only 435 feet, but already it has gone through 107 feet of gas sands with good indications of oil.

The well is on the property of the Braden-Alberta. It is owned by Mr. Bradley, the company's representative at the mine is an old oil and gas man and a practical driller. He gave a party from Edmonton a demonstration of the well yesterday. They included industrial commissioners C. M. Hall, L. A. Smart, formerly assistant engineer of the city of Winnipeg, now representing English capitalists; H. S. McBevel, of the Jasper Brothers Limited; R. L. Robertson and T. R. Webb. A one-inch blow pipe has been laid out from the well and when the gas was turned on the roar could be heard over a mile away, while flames rose to over 60 feet. It would have seemed a great light on a dark night but the flames hardly made a contrast with the blue sky of yesterday although the heat could be felt 100 feet away and a bottle put in contact was blown to a thousand pieces.

The company has only one well at present but if all the wells produce anything like the amount of the first one, then the dream and wish of drillers and manufacturers that Alberta, and Edmonton in particular, should be a big gas producer is to be assured.

After North Sea Battle

Germans Lowering Wounded into Hospital Between Decks.

DESPERATE STRUGGLE ON FRENCH FRONTIER ENDS IN DECISIVE GERMAN DEFEAT

FLOWER SHOW TO OPEN ON FRIDAY; ENTRIES NUMEROUS

Three Times as Many Exhibitors as Last Year—900 are Children

WILL LAST TWO DAYS—BAND IN ATTENDANCE

Interest Taken is Evidence Edmonton Becoming Beauty City of West

War hath no terrors for those who are making and keeping Edmonton "the city beautiful." That is proved by the fact that the entries for the annual show of the Edmonton Horticultural society, which opens Friday afternoon at 2:30 in the Thistle ring, south side, are three times as numerous as last year.

The large number of entries is to a large extent due to the encouragement given by the society to the children of the city to grow flowers. Earlier in the year the children were given pot plants at the special price of ten cents each, with the privilege of showing them at this show free and getting free admission themselves. The offer has resulted in 300 of the youngsters being now exhibitors.

In addition there are 1,500 ordinary entries at the show. A band will be in attendance Friday and Saturday evenings, the show lasting two days. Judging will be finished by Friday noon. It is expected, and everything will be ready for the display of the gorgeous flowers by opening time.

The large number of entries and their splendour is magnificent evidence that Edmonton is fast becoming the beauty city of the west. The innovation made this year in practically giving children free plants, free entries and free admission to the show has gone a long way to accomplish this end.

United Aids Meeting.
The council of the United Aids will meet in the council chamber of the civic block on Friday night at eight o'clock.

Continuous Rain of Shells Wrecks House, Starts Fires and Causes Unutterable Misery—Women Fall on Their Knees and Pray During Pitiless Bombardment by Heavy Artillery of Tuctons—Civic Guards in Brussels Ordered to Disarm as Capture of Belgian Capital is Imminent.

BULLETIN—Paris, Aug. 20, (3 p.m.)—Re-occupation of Mulhausen, Alsace, by French troops is announced officially here today.

The re-capture of Mulhausen was preceded by a very severe battle, during which the French troops took one of the suburbs at the point of the bayonet. They also took as a result of their victory, six German cannon and six ammunition wagons.

The official note says, the situation in the Vosges mountains is unchanged. In Upper Alsace the French have occupied Guebwiller, 14 miles southwest of Colmar.

In Lorraine, it is stated, the French lines extend from the north of Saarburg passing by Mochingen to Delme. The situation in the Duchy of Luxembourg and Belgium is unchanged.

Ends in Victorious Advance
London, Aug. 20.—A despatch to the Times from Paris says that the first point at which the Germans crossed the French frontier was at Grey-Sur-Vesceuse. Since then there has been continued fighting in that region until a day or two ago, when it ended in the victorious advance of the French forces, who inflicted a decisive defeat on the enemy and drove them back across the frontier east of Lancelville. The correspondent says that the tactics of the French minister of war gives little idea of the desperate struggle that occurred around the handful of villages scattered along the French border. Point after point was taken and re-taken by one side or the other. He gives the following story of the fighting at the village of Badonviller, as told by the villagers:

The village was occupied by a battalion of chassours as a covering force and was prepared for defense by numerous trenches. The battle began on August 10. The Germans bombarded the village, compelling the chassours to evacuate it. The latter retired on Celles and afterwards took up a position on Donan ridge.

Sought Refuge in Cellars.
After nightfall, the Germans increased the bombardment and the inhabitants sought refuge in cellars as a continuous rain of shells wrecked the houses and set them afire. It was a terrible sight. Women fell on their knees and prayed while children cried piteously. The chassours retired defending every house foot by foot and making the Germans feel their fire. The run rose on a village in ruins. It had been under bombardment fifteen hours.

When the Germans entered they fired first on all the windows and down loopholes into the cellars. No corner was spared.

Occupation of Brussels Imminent.
London, Aug. 20.—(3:45 p.m.)—A despatch to the Star from Brussels says the German occupation of Brussels is imminent. The burgomaster of the Belgian capital has ordered the civic guard to disarm.

The following information was given out by the official information bureau this afternoon: "The Belgian field army, confronted by superior numbers, has fallen back. The Belgian troops have admirably performed their duty in delaying hostile advance and enabling their allies to compete their concentration."

Austrians Repulsed, Losses Heavy
London, Aug. 20.—Telegraphing from St. Petersburg the correspondent of the Daily Telegraph sends a communication issued by the Russian general staff reporting a prolonged engagement about thirty miles northwest of Kaminitz, the capital of Padolia.

"At noon Monday," the communication says, "an Austrian cavalry division with artillery and machine guns reached the line of the small town of Kusmin where they engaged Russian cavalry. After stubborn fighting which lasted until 7 o'clock in the evening, the Austrians were beaten back with heavy casualties. The Russian casualties were small."

Montenegrins Join Servians.
Milan, Aug. 20.—A despatch to the London Daily Chronicle says the main body of the Montenegrin troops has been incorporated as an army corps in the Servian army. They entered Perzegovina from Trebinje and are now nearing Ragusa.

Belgians Outnumbered, Fight Stubbornly and Check Invaders' Rush
London, Aug. 20. (5:10 p.m.)—A despatch from Reuters News agency from Ghent, Belgium says:

"Yesterday's fighting at Aerschot was extremely hot. The appearance of two German aviators was the first intimation that the Germans, who had been repulsed on the previous evening, intended to renew the attack."

"Flying low the German aviators surveyed the positions and then returned to report."

"Soon afterwards the German infantry, supported by machine guns and artillery, opened a fierce attack."

"The Belgians were outnumbered, but made desperate resistance. The troops on both sides fought fiercely, and the battle soon became a butchery."

"Two Belgian regiments, who already had distinguished themselves in the forts of Liege, held the invaders in check for two hours. Both sides were losing heavily when the retreat was sounded."

"Major Gilson, whose nose had been broken by a bullet, took charge of the Belgian rear guard, which fought so stubbornly that at seven o'clock of his force of 288 men remained."

TUE TONS ENTER EDMONTON AFTER TERRIBLE ONSLAUGHT

Portion of Belgian Army Retires in Direction of Antwerp—Report Says Kaiser's Cavalry Played by Attacking Flying Populace, Shooting and Striking Them at Random.

(Capital Leased Wire.)

Paris, Aug. 20.—There is a persistent rumor here that the Germans have occupied Brussels, but it cannot be confirmed.

Belgians Retiring to Antwerp.

Paris, Aug. 20.—(10:15 a.m.)—A portion of the Belgian army has begun to retire in the direction of Antwerp, according to an official announcement this morning concerning the situation in Belgium. East of Namur the Germans have attained the line between Dinant and Neufchâteau. Large German forces continue to cross the river Meuse between Liege and Namur. German outposts have occupied Dyle.

Swift and Terrible Onslaught

London, Aug. 20.—(5:30 a.m.)—A despatch to the Times from Brussels says: "The Germans in strong force, mostly cavalry and artillery, entered Tirlemont early this afternoon (Tuesday). The big guns shelled the place, while the cavalry played at war by attacking the flying, panic-stricken populace, shooting and sticking them at random."

"About five miles from the town two trains were made up and fully 1,000 refugees got away. So swift and terrible had the onslaught of the Germans that in flight for their lives men, women and children left everything behind. Never was such a picture of woe as that presented by a group composed of a peasant woman and five children, standing bewildered in the square crying as though their hearts would break. The woman said: 'They shot my husband before my eyes and trampled two of my children to death.'"

"The last glimpse of the refugees of Tirlemont showed smoke and flames in different quarters of the town."

Closing in On City.

Brussels, Aug. 18.—(via London, Aug. 20, 6:30 a.m.)—The war evidently is rapidly drawing nearer this city. Already four hospitals are filled with wounded soldiers. German aeroplanes have been seen scouting above the city after sundown.

German cavalry is reported frequently in the region on the farther side of the forest of Soignes, which flanks this city. This forest is the point from which the war is most likely to come, in the opinion of many here, and a net work of trenches have been thrown up along the woods. The trenches are occupied by burghers and a few civil guards.

The forest of Soignes, which is to the southeast of Brussels, extends in the direction of Wavre, where severe fighting has been reported. Trustworthy reports have been received of an engagement near Charleroi. It is claimed by the Belgians that 6,000 Germans were killed in this battle.

Germans Attack Diest

Brussels, Aug. 20.—(via Paris, Aug. 20, 4:30 a.m.)—The Germans made a new attack on Diest in the afternoon (date not given) according to press despatches. After pillaging the railway depot they bombarded the town from which half the inhabitants had fled.

Important Developments.

Paris, Aug. 20.—(12:22 a.m.)—The communication given out by the French war department this morning was the briefest for some days. It announced only the bare facts of important developments now in progress in Belgium and added that there was nothing new along the front in Alsace-Lorraine.

Make Surprise Advance.

London, Aug. 20.—A Brussels despatch to the Haves agency says that the Germans again attacked Diest on Wednesday afternoon. They appeared to have come back in force and bombarded the town, whose inhabitants fled in terror. The German artillery also is reported to have bombarded Tirlemont.

Another Haves despatch from Brussels, sent in very vague form, leads to the belief that the Germans made a surprise advance close to the Belgian position defending Brussels. They encamped for the night, but a Belgian aviator discovered their position and revealed it to headquarters in time. Cavalry was hurried forward and after some marching and counter-marching the Germans were retired.

Enemy Gaining Ground.

Paris, Aug. 20.—An official communication received here from Brussels says: "The Germans have gained ground on both banks of the river Meuse and are in contact with the armies of the allies. The enemy finding the routes to the southward strongly held by French and Belgians, discovered an opening to the north. This may entirely change the strategy of the campaign."

VIKING GAS WELL TO BE TAKEN OVER BY CITY OF EDMONTON

The city will take over the gas well which has been drilling at Viking. This was the decision arrived at after a meeting of the Ad club gas committee and the city commissioners. The gas committee will form itself into a company, known as the Edmonton Industrial Association Drilling company, with a capitalization of \$25,000 composed of James Hames, W. J. McGrath, M. R. Jennings and W. A. Milne, who are the trustees for the citizens who have invested in the undertaking. It will seek provincial incorporation at once.

There were a few legal difficulties to be overcome before the transfer of the company could be made, one of these being the city charter, which says that the mayor and aldermen must not be directly interested in a contract. This point, however, is covered by the incorporation of the new company, known as the Edmonton Industrial Association Drilling company, from which the city will take the gas well.

Reported Wiener Dead.

Rome, Aug. 20.—The report is current that Francis Xavier Wiener, general of the Society of Jesus, died last midnight. It has been impossible officially to confirm the report.

Sacramento, Cal., is to have the largest almond-shelling plant in the world.

RUSSIANS TAKE MANY PRISONERS, CAPTURE TWELVE GERMAN GUNS. St. Petersburg, Aug. 20.—(via London, 12:30 p.m.)—A body of Russian troops, according to an official communication given out today, has occupied Gumbinnen, 25 miles from the Russian frontier of East Prussia, capturing at the same time 12 German guns and a large number of prisoners.

ENGLISH MERCHANTS TO ESTABLISH TRADE CONNECTIONS HERE

London, Aug. 20.—With a view to replacing some of the larger markets in hardware and metals, the syndicate of British merchants are sending out today by the Lake Manitoba a direct representative, F. G. Donahue, to act in the general interests of obtaining some goods hitherto supplied by Germany for the whole of the English market.

"That Canada is alive to opportunities presenting themselves is obvious," says Mr. Donahue, "from the prompt and courteous assistance given to us by the Canadian representatives on this side. It now merely remains for the Canadian government and manufacturers to grasp the opportunities for a large trade to spring up between us."

Battle Close to Waterloo.

London, Aug. 20.—The Chronicle says present indications are that the great battle in Belgium for which the scene has been set, and which is now probably being fought, will be decided on ground extending in a great semi-circle from Diest to Namur, curving by way of Quatrebras and Wavre, close to the historic field of Waterloo.

DODD'S KIDNEY PILLS
CURE 23 THE PRO

FINE SPEECHES BY BOTH LEADERS ON DUTY OF CANADIANS

Let Enemies Know Only One Mind and Heart in Canada Says Sir Wilfrid.

SHOULD GLADLY ACCEPT HER RESPONSIBILITIES

Says Dominion Has Long Enjoyed Benefit of Citizenship—Will Prove It is Appreciated

Ottawa, Aug. 20.—Sitting under the stars of the house of commons yesterday afternoon by Sir Robert Borden and Sir Wilfrid Laurier in the debate on the speech from the throne. Not one action word was uttered by any member and the proceedings passed as though there were only one party.

Sir Wilfrid Laurier said in the course of his speech: "It is our duty, more pressing upon us than all other duties, at once on this first day of debate in a Canadian parliament, to let Great Britain know that there is in Canada but one mind and one heart, and that all Canadians are united behind the mother country, conscious and proud that she did not engage in that war for any selfish motive, for any purpose of aggrandizement, but that she has engaged in that war to maintain the honor of her name, to fulfill her obligations to her allies, to maintain her treaty obligations, and to save civilization from the unbridled lust of conquest and power."

"We are British subjects, and today we are faced to face with the consequences which are involved in that proud fact. Long we have enjoyed the benefit of our British citizenship; today it is our duty to accept our responsibilities and even sacrifice."

"If it has been done, or in what manner it is done, we do not know, but in our judgment should not be done, or should be done differently, we raise no question, we have no exception, we offer no criticism, and all should offer no criticism so long as the cause is just."

Sir Robert Borden said: "In the awful dawn of the greatest war the world has ever known, we are called upon to shoulder to shoulder with Britain and the other dominions in this quarrel and in this struggle. We shall not be the honor of Canada demands—not for the love of battle, nor for love of conquest, not for greed of power, but for the cause of honor, to maintain solemn pledges, to uphold principles of liberty, to withstand forces that would convert the world into an armed camp—yes, in the very name of that peace we sought at any cost save that of dishonor, we have entered into this war and gravely conscious of tremendous issues involved, and of all the sacrifices that they may entail, we don't shrink from them, but with firm hearts we abide the event."

ANOTHER DECLARATION OF WAR CANNOT SCARE GERMANY SAYS PAPER

Copenhagen, Aug. 20.—A despatch received here from Berlin says: "The Japanese ambassador's departure from Berlin is approaching. The police are guarding the embassy. The Japanese club is empty."

"All Japanese students in German universities have left. The Yasukuni Zeitung says, commenting on Japan's ultimatum to Germany: 'One more declaration of war cannot frighten Germany, and Japan's action is without any importance.'"

GOVERNMENT WILL GIVE POSITIONS AT SAME SALARY

Premier Borden said today that all the men who are in the employ of the Alberta government and who leave for the war, on their return, to which they are entitled, will be given the same positions as they now hold, as some of them would have to be filled.

ATTORNEY GENERAL'S DEPARTMENT REVOKES MORE CLUB LICENSES

Two other Edmonton clubs have had their liquor permits cancelled by the attorney-general's department for infractions of the Liquor License Ordinance. They are the Opus and the United Service clubs. Up to the present five Edmonton clubs have lost their licenses this year, the others being the Great West, the Commercial and the Greek Canadian.

Received With Enthusiasm. London, Aug. 20.—The announcement of the government regarding the curtailing of German export trade has been received with enthusiasm by British traders.

London, Aug. 20.—Several large bakery firms have offered to bake and arrange for the free delivery of Canada's gift of one million bags of flour.

PLAN FRUSTRATED TO COAL NURNBURG FROM BOAT AT SEA

International Relations Between U. S. and Germany May Suffer by Discovery

San Francisco, Aug. 20.—Five which broke out in the hold of the German steamer *Maximilian* yesterday revealed to J. O. Davis, collector of the port of San Francisco, conditions which he believed pointed to a plan for coaling at sea the German cruiser *Goeben* with the remainder of 1,600 tons of coal purchased by the German government for the bulkhead of the cruiser *Loening*.

After the 575 tons of coal followed by his government to be loaded into the bunkers of the *Loening* were put aboard a few days ago, the remaining 425 tons were loaded aboard the *Maximilian*, ready to sail yesterday for Mexican ports with a cargo of general merchandise.

The fire which was easily put out was discovered while the *Maximilian* was lying at her dock, and the fact that the coal was stored on top of the general cargo in closed bags led the authorities to suspect that an attempt might be made to re-load the vessel with the coal of the *Loening*, the vessel of the *Goeben*. The warship is reported to be cruising near the coast not more than 100 miles south of San Francisco.

Collector Davis, after a superficial investigation, ordered these vessels held in port until a complete examination could be made. He then telegraphed his action to Washington in anticipation of any international trouble which might grow out of the steps taken. John Rothchild, who sold the coal to the German government, and at whose direction it was placed aboard the *Maximilian*, said he was given to understand that it was to be delivered to a commission house in Baltimore.

"I have requested the commander of the United States frigate *Albatross* to watch the *Maximilian* and to see that she does not leave port until satisfactory examination has been made," said Collector Davis.

French Reservoirs Leave Canada. Montreal, Que., Aug. 20.—A detachment of 1,600 French reservists will sail for the war by the *Verdun* on Friday. This detachment will make over 1,700 French reservists who have left Canada this week to join their regiment.

In 21 mine disasters in the world in 1908 over 5,000 lives have been lost.

ANY DYSPETIC CAN GET WELL

By Taking "Fruit-a-lives" Says Capt. Swan

Life is very miserable for those who suffer with Indigestion, Dyspepsia, Sour Stomach and Biliousness. This letter from Captain Swan (one of the best known skippers on the Great Lakes) tells how to get quick relief from Stomach Trouble.

PORT HURON, Ont., May 8th, 1913.

"A man has a poor chance of living and enjoying life when he cannot eat. That was what was wrong with me. Loss of appetite and indigestion was brought on by Constipation. I have had trouble with these diseases for years. I lost a great deal of flesh and suffered considerably for the last couple of years. I have taken 'Fruit-a-lives' and have been so pleased with the results that I have recommended them on many occasions to friends and acquaintances. I am sure that 'Fruit-a-lives' have helped me greatly. By following the diet rules and taking 'Fruit-a-lives' according to directions, any person with Dyspepsia will get benefit."

H. SWAN

"Fruit-a-lives" are sold by all dealers at 50c a box of \$2.50, or trial size 25c. Send postal note on receipt of price by Fruit-a-lives Limited, Ottawa.

THE PHILOSOPHY OF JANEY CANUCK TAKES OLD LONDON CAPTIVE

The Bookman, of London, England, has in its August number placed Mrs. Arthur Murphy of Edmonton in its "Gallery," and has given three pages to discuss her philosophy, which it describes as having "literally sung its way through the domes of the British Museum."

"Her work," says The Bookman, "has the optimistic optimism of the true lyric; the song of the open road. The refrain of the windpipe spaces was never set to a better tune. It is not style that matters in the work of the 'Janey Canuck,' any more than it matters in the work of Walt Whitman—a kindred philosopher. She comes scattering seeds of gladness in our midst; our gloom is gone like a black cloud; the bright dawn of the April sun is the philosophy of gladness and content, and common sense, a philosophy as durable as the rock of Gibraltar."

The whole thing is a garland of gladness sparkling with the dew of a clean, fresh philosophy—a crown of rest for the tired brow. What patron saint, we wonder, under 'Janey Canuck' when she is waving her bright flag? Of all 'Janey Canuck's' books, commend me to Open Trails. It is a tribute—a book that makes you want to go and bury your face in the cool brooks, to hear blackbirds' and robins piping against the clear ether; to be the brother to the wind, the lover of the stars; to breathe the freedom of the air-washed spaces and to follow the trail through the forest, the woods and 'winding ways'."

It is as refreshing as a bunch of spring flowers, and it is as true as the heart of 'Janey Canuck' that has set all the critics raving on the other side of the Atlantic and has taken up the challenge to Emerson analyze it any more than could Emerson analyze the charm of the Rhodora of the woods. When you hear the thrush singing his song in the green trees you do not ask: what makes it sing? you are content to listen. So it is with the author of Open Trails."

POLITICS SILENT AT CONVENTION OF 'SOONA LIBERALS'

By Agreement Party Questions are Dropped and Meeting Simply Organizes

J. J. McKenzie, of South Side, Chosen President

There were no speeches along the lines of party politics at the convention of the Liberals of the Strathcona constituency which was held in the Elbow theater, south side, on Wednesday afternoon. By mutual agreement party politics were dropped, but the meeting did some quiet organizing in preparation for the next political battle.

A splendidly united spirit was shown by all liberals present, and representatives from Edmonton, South, Lacombe, Millet, Wetaskiwin, Fort Saskatchewan and Ponoka. Most of the elections were by acclamation.

Dr. Campbell, M.P., Ponoka, who presided, said: "War has been declared and in accordance with custom we will discuss with political speeches. I am sure we all believe in the justice of the Empire's cause in the present conflict. (Applause.) We all hope and believe that Great Britain's arms and those of her allies will triumph, which will mean the dawning of a brighter and happier day for the countries of Europe."

Officers were elected as follows: Honorary president, the Right Hon. Sir Wilfrid Laurier.

Vice-president, J. J. McKenzie, of Edmonton south.

Secretary-treasurer, A. T. Mode of Edmonton south.

Executive committee: Mrs. McKenzie, Secretary Mode and William Lane of Edmonton north; John Paul, A. Chard and T. G. Montgomery of Port Saskatchewan; H. T. Telford and E. G. Wells of Leduc; P. J. Jordan of Millet; V. P. D. Robertson, A. G. Gross and Dr. N. A. Johnson of Wetaskiwin; Dr. A. W. Campbell, W. E. Turner and Mr. Fleming, of Ponoka.

The president thanked the liberals for the honor, and promised to do his best for the victory of liberals in the Strathcona federal constituency, so that they will be successful at the next election.

Frank Walker, M.P.P.; C. Olin, M.P.P.; S. G. Tobin, M.P.P.; A. T. Mode, Dr. Robertson, C. A. Grant, D. H. MacKinnon, T. G. Montgomery and others made brief speeches.

Critics raving on the other side of the Atlantic and has taken up the challenge to Emerson analyze it any more than could Emerson analyze the charm of the Rhodora of the woods. When you hear the thrush singing his song in the green trees you do not ask: what makes it sing? you are content to listen. So it is with the author of Open Trails."

MAGIC BAKING POWDER

CONTAINS NO ALUM. The only well-known medium-priced baking powder made in Canada that does not contain alum (or soda aluminate) and which has all its ingredients plainly stated on the label.

E.W. GILLET CO. LTD. TORONTO, ONT.

POPE PIUS PASSES; END IS HASTENED BY EUROPEAN WAR

Rome, Aug. 20.—Pope Pius X. died early this morning. It is stated by those who were in close touch with him that there is no doubt his end was hastened by events of the last few weeks.

Pius X., Giuseppe Sarato, was born at Riese, in Treviso, in 1855; appointed bishop of Mantua in 1884 patriarch of Venice in 1893; and created cardinal in the same year; and appointed pope in 1903. The principal events of his reign have been the separation of church and state in France, and the publication of a syllabus and encyclical letter condemning what are called modern erroneous doctrines. In conjunction with the former he issued, in February, 1904, a strong-voiced encyclical protesting against the character of the new law and the way in which it was passed. The syllabus, which is a pronouncement of the Congregation of the Holy Office endorsed by the pope, was issued in July, 1907. It contained a list of 65 condemned propositions dealing chiefly with extreme and radical positions taken by certain modern writers on matters pertaining to Christian belief, biblical criticism, theology, church discipline, etc.

DUKE OF CONNAUGHT'S PLANS NOT CHANGED; WILL LEAVE OCTOBER

London, Aug. 20.—War has made no difference to the plans of the duke of Connaught, governor general of Canada. It was learned officially here last evening, and he will return home at the end of October. The Duke of Connaught, it is understood, though not yet officially announced, will be given a military appointment.

FREE TO ALL SUFFERERS. Sufferers of all kinds who are afflicted with rheumatism, neuralgia, sciatica, etc., will find relief in the use of the "Pain Expeller" or "Pain Killer" which is a powerful remedy for all kinds of pain.

THE "PAIN EXPELLER" OR "PAIN KILLER" IS A POWERFUL REMEDY FOR ALL KINDS OF PAIN. IT IS A SURE CURE FOR RHEUMATISM, NEURALGIA, SCIATICA, ETC.

IT IS A SURE CURE FOR ALL KINDS OF PAIN. IT IS A SURE CURE FOR RHEUMATISM, NEURALGIA, SCIATICA, ETC.

Andreas Hofer—The Inn-keeper Patriot of the Tyrol

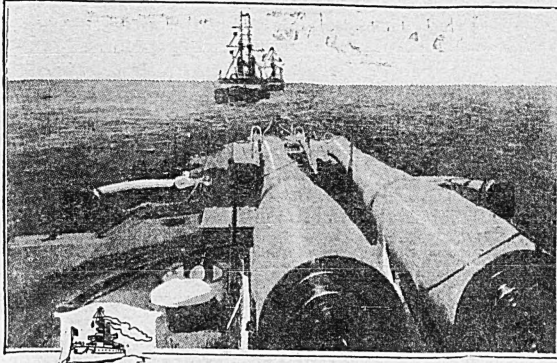

TO THIS peasant-leader Liberty was as much the breath of life as it is to the strong-winged eagles of the Alps. To achieve it for himself and his mountain brothers he gladly laid down his life. No less a personality than Napoleon vanquished him, and it was because he feared him that the Great Emperor ordered Hofer shot. Every atom of Andreas Hofer loved Liberty. He demanded it for himself and willingly gave it to others. In this respect he is no different than are our thousands of Tyrolean citizens. Personal and National Liberty to those of Tyrolean blood is a religion. To a man they will fight for it and to a man they will die for it. When asked to vote for Prohibition they do as would do the great patriot Hofer—VOTE AGAINST IT. Thou shalt NOT eat this—thou shalt NOT drink that, is insolent legislation to those of Tyrolean blood. Anheuser-Busch are proud to serve their thousands of Tyrolean patrons for 57 years these people have been moderate users of their honestly-brewed beers. BUDWEISER is a favorite wherever they reside. Seven thousand, five hundred people are daily required to meet the constantly increasing demand for BUDWEISER. Its sales exceed those of any other beer by millions of bottles. ANHEUSER-BUSCH—ST. LOUIS, U.S.A.

OIL INDICATIONS ARE ENCOURAGING AT THE MARITIME

Baler Brings Up Globules of Petroleum from Depth of 500 Feet

With every prospect of proving the oil and gas possibilities of an extensive area in the vicinity of Leduc, 25 miles south of Edmonton, the Maritime Petroleum company is doing valuable exploration work in the way of drilling. The work was commenced about five weeks ago and a depth of about 500 feet has now been attained. With every foot that the drill sinks deeper into the ground the results are more encouraging. Its beneficial cleansing and preservative action is quickly apparent, and ladies who have been paying high as a price for a far from brilliant from beauty specialists, soon recognize that marvellous skin extracts themselves. It has become so popular that it can be used at all climates, in the original British Isles, American druggists also have great demand for it in original package. The favorite way of using it is to apply it to the face, before retiring, washing it off in the morning. The skin lotion for wrinkles and the facial cream has also become extremely popular. The cream is powdered and dissolved in one-half pint with water. Bathing the face in this is a special effect in erasing wrinkles and improving color.

Is this Why English Beauties Are So Fair?

(From London Herald.)
Ever since the discovery that marvellous skin extracts themselves. It has become so popular that it can be used at all climates, in the original British Isles, American druggists also have great demand for it in original package. The favorite way of using it is to apply it to the face, before retiring, washing it off in the morning. The skin lotion for wrinkles and the facial cream has also become extremely popular. The cream is powdered and dissolved in one-half pint with water. Bathing the face in this is a special effect in erasing wrinkles and improving color.

DANCING

Health and Beauty Helps

BY MRS. MAE MARTIN.

See L—I always recommend quinine to put vitality and luxuriance into anyone's hair. It will promptly remedy the dandruff and itching scalp; it costs little and you can prepare it at home. From your druggist get one ounce quinine and one half pint of alcohol. Mix and add one half-pint cold water. This makes enough tonic to last a long time. Apply to your scalp twice a week. This is fine to prevent falling of the hair and premature loss of color.

Body.—Don't worry about being too "plump" when there is such a simple, easy way to reduce flesh without dieting or any strenuous exercise. Get four ounces of paraffin from your druggist and mix it in one and one-half pints hot water. Take a tablespoonful before meals. This is luxurious and inexpensive, and I think you will find a beneficial change within a week.

Leucora.—There is no virtue in an eye shampoo. The slimy animal matter flies to the strands and clogs the pores of the scalp. Try this simple shampoo: Get some cantharox from your druggist and dissolve a level teaspoonful in a cup of hot water. Rub the scalp stimulated and cleaned and the hair beautiful soft and fluffy. Polity: You do not need to scrub for the new, perfect substitute for face powder. Make it yourself at home, by dissolving four to five grains of borax in one half pint hot water. This is the simplest, purest lotion for making the skin soft and naturally fair. It stays on closely, and gives a youthful freshness. When on it seems part of

WORRIES OF SHOP LAID ASIDE FOR DAY AT THE LAKE

Employees of Hudson's Bay Company Enjoy Annual Outing at Wabamun.

Ideal weather, perfect arrangements and sympathy of settlement, which has cemented employer and employee together for many years, contributed to the splendid success of the Hudson's Bay company picnic at Wabamun lake on Wednesday. In enjoyable features it eclipsed all former outings of the employees of this popular house, and the 400 who took advantage of the occasion returned to the city last night greatly benefited by the short relief from strenuous duty during the past two weeks.

The trip to Wabamun lake was made by special train which left Edmonton at 9 o'clock in the morning, and the return was made at 11 o'clock at night. The party of picnickers was accompanied by General Manager and Mrs. A. B. Dodman, Mr. Stiles, the new superintendent, and by a number of department heads, all of whom took a lively interest in the proceedings and who overlooked nothing that might contribute to the happiness and pleasure of the employees.

The program of sports attracted attention and resulted in much amusement, both for those who indulged in them and for those who watched them, and the rivalry was keen. Those who participated enjoyed the boat-bathing and the dancing pavilion presented a gay appearance during the greater part of the day. Luncheons were enjoyed beneath the trees.

The sports events are under the direction of Messrs. Dodman, Stiles and Crockett as judges; Mr. Johnson, starter; Mr. Pugsley, scorer; Mr. Milligan, timekeeper, and Messrs. Kumball, Jarvis, Waldron and Esplin, policemen. Prizes were presented by Mrs. Dodman. The winners were as follows: Girls' race, open—1, Ethel McEwen; 2, Nellie Livsey; 3, Dorothy Smith. Boys' race, open—1, Margison; 2, Rankin; 3, Dodman. Young ladies' race—1, Miss Daisy Walker; 2, Miss Taylor; 3, Miss McAdam. Young men's race—1, Crossley; 2, Adams; 3, Rennie.

Married couples' hopping race—1, Mrs. Smith and Mr. Crockett; 2, Mr. and Mrs. Adams. Potato race, ladies—1, Miss Daisy Walker; 2, Miss Latimer; 3, Miss Taylor. Biscuit race, men—1, Seal; 2, Burroughs; 3, Godfrey.

Hop-step-and-jump, men—1, Crossley; 2, Crossley; 3, McDiarmid. Boot-shoe race, children—1, John McKellan; 2, Earl Houghton; 3, Frank Dodman.

Sack race—1, Miss Taylor; 2, Miss Horne; 3, Miss Anderson. Thread-needle race—1, Mr. and Mrs. Hunt; 2, Miss Taylor and Mr. Rennie. Married ladies' race—1, Mrs. Grostinger; 2, Mrs. Hunt; 3, Mrs. Hague.

The winning tug-of-war team consisted of Messrs. Durcaville, Griffen, Birch, Barton, Shirley, Waldron, Koeber and Burroughs.

NAMUR, ON BELGIAN 2ND DEFENSE LINE

This is a view of Namur from the citadel and shows the river Meuse running through the city on its way north to Liege, which also lies on the Meuse. The Belgians have established a powerful chain of fortifications in the vicinity of Meuse, and should the Germans capture Liege or pass, leaving it beleaguered, they will, it is expected, meet a stubborn defense at the second line.

LABOR SITUATION AIDED BY BUREAU FOR HARVEST HELP

More Than 1,000 Men Moved
From Cities and Drought Dis-
tricts to Employment.

OVER 600 SOUTHERN
FARMERS ASSISTED

No More Help Required in Central
Part—North and East
Nearly Full.

The labor situation in this province is being satisfactorily assisted by the government's harvest help bureau, which is arranging for the transfer of men from the cities and from the drought districts in southern Alberta to parts of the province where the harvests are heavy. Over 1,000 men have already been moved to places where their services are required, through the bureau. Of this number over 600 are farmers and homesteaders from the central part of the province who are being transferred to the north and east on account of the poor crops in part of the south. These men have been moved into the north and central parts of the province.

Arrangements were made whereby harvesters from the south might get transportation to places in the northern and central parts of the province on the strength of a coupon, both outward and return fares to be paid on their return. In cases where the men did not return, the cost of the coupon was paid by the government. Most of the needed harvest help has already been supplied, and tickets are only issued at the cent per mile rate to men who have employment to go to, or in cases where it is reported that help is required. No tickets are issued for points outside the province. Chas. S. Hotchkiss, publicity commissioner, who is looking after the harvest help problem in the province, states that a number of farmers in the vicinity of the city are beginning their harvest, and he believes that some of them can give employment to men who want work for the harvest. The crops are particularly heavy in the Bow River district, where cutting is in progress on numerous farms. Mr. Hotchkiss states that no more help is required in the central part of the province, including Hardisty and Sedgewick, the places having already been filled by men from the south. A few places in the eastern part of the province are still open.

SALARY CURTALMENT AS RECOMMENDED BY CITY COMMISSIONERS

The following resolutions, recommending certain regulations concerning the salary allowances for retained city employees during the period of financial stringency, adopted by the city commissioners, have been referred to the special committee.

1. That all officers, officials and employees of the city be paid their salaries or wages in full up to the first day of September, 1914.

2. That the standard of salaries or wages be maintained and that every officer, official and employee be placed on such a basis that at least 10 per cent of his salary be withheld.

3. That the salaries or wages of all unmarried persons employed by the city (under the rank of superintendent) be withheld temporarily excepting the sum of \$50 per month, with an allowance of \$5 per month for each dependent residing in the city of Edmonton, and sustained out of the salary of said person, the balance of each person's salary to be placed to the credit of such person.

4. That the salaries or wages of all married persons employed by the city be withheld temporarily excepting the sum of \$75 per month, with an allowance of \$5 per month for each dependent residing in the city of Edmonton, and sustained out of the salary of such person or superintendent, the balance of each person's salary to be placed to the credit of such person.

5. That the salaries of the city commissioners be withheld temporarily excepting the sum of \$150 per month, the balance of each commissioner's salary to be placed to the credit of such commissioner.

6. That all persons employed by the city who are financially able to defer payment of all or any portion of his salary or wages larger than the amount herein to be needed to do so.

7. That no interest be paid on deferred payments of salaries or wages and that such deferred payments be held in trust by the city, to become due and payable December 31, 1914, or at such other time as the city is in a financial position to pay such deferred payments.

8. That the said deferred payments be transferable for the purpose of payment of taxes.

9. That the continuation in office of any person employed by the city and the deferment in payment of part of his salary or wages shall not be an agreement on the part of the city to continue such person in his office or employment.

10. That all persons continued in the service of the city who are married shall mean children under the age of eighteen not in receipt of wages, and aged parents, and as to unmarried men, brothers and sisters, provided they are not in receipt of an income outside the portion of the salary of the person employed by the city.

11. That every officer, official and employee of the city who is in the service of the city sign an agreement assenting to the above arrangement as a condition to his continuance in such service.

12. That should it subsequently be found that any employee of the city has given false information with respect to the above clauses, such employee to be subject to immediate dismissal.

13. That should it be found that any employee of the city has given false information with respect to the above clauses, such employee to be subject to immediate dismissal.

14. That should it be found that any employee of the city has given false information with respect to the above clauses, such employee to be subject to immediate dismissal.

15. That should it be found that any employee of the city has given false information with respect to the above clauses, such employee to be subject to immediate dismissal.

SPORTSMEN'S RULES PLAINLY SET FORTH IN NEW GAME CHART

What sportsman may and may not do is clearly set forth in a chart issued by Benjamin Lawton, provincial game warden. The chart shows the dates when shooting of certain game is permitted, and also the number of each variety of game to which the sportsman is limited.

The open season for mountain sheep and moose is September 1 to October 1. Only two male mountain sheep and two moose may be taken by any one person. Deer, caribou and moose may be shot from November 1 to December 1, but of deer and moose only male may be taken and of caribou only one. Ducks, swans, geese, rail coots, snipe, plovers, etc., may be shot from September 1 to December 31, and the sale or purchase is prohibited between March 1 and September 20. Prairie chickens and quail may be shot during October and November, but the number is limited.

Liners Leave for Liverpool. New York, Aug. 20.—Two liners sailed for Liverpool today with passengers and mail and big cargoes in their holds. The American liner Philadelphia left with 113 cabin and 16 steerage passengers. William F. Sharp, the new United States ambassador to France, had reserved a cabin but postponed his departure until next week. Sir John L. Harrington, confidential agent of the British foreign office, sailed on the Canadian liner Lacomia at 3 o'clock in the afternoon. The Lacomia sailed with her female passengers and her supercargo board.

SOME OF THE MEN WHO HAVE MADE THE EXHIBITION GROW

Honor Where Honor is Due—The Men Who Work "Between Whiles" to Make Edmonton Exhibition the Greatest Fair in Western Canada—Advances Seen All Along the Line—Despite the War Cloud the Blue and Gold Has Again Been Carried to Victory.

In noting the remarkable growth the Edmonton exhibition has made along different lines, it might be pointed out that this growth is not merely a natural sequence with the development of the country. Much is due to the "men behind the guns" who are working for the exhibition from the day it closes one year, until it opens the next—and between times.

Agricultural products show an increase from 1913 entries to 1914 to 388. In 1914, with many more exhibitors, J. R. McIntosh, director in charge of this department, is deserving of special mention for the interest he has displayed in this section. His interest has been backed up with considerable practical work, the result of which is seen today in the splendid display of agricultural products.

Poultry entries numbered 1,699 in 1913 and 2,078 this year. W. R. West, vice-president of the Exhibition association, is responsible for a great extent for this increase. Mr. West is a poultryman himself, and naturally understands the requirements of the poultry world, and is more or less in touch with poultry people. As director in charge of the exhibition, he has been able to do a great deal of work for the exhibition, and to Alberta, in encouraging the industry of poultry raising, and bettering its position.

In the Horse Section. R. J. Macdonald, E. A. Calder, S. H. Smith and G. Long are persistent workers in the interests of the horse department of the exhibition. The outcome of their endeavors is apparent in the fine class of horses which were found on the exhibition grounds last week, and the increase in entries in these classes. While the increase for the year is perhaps less in figures than in some departments, it has been a steady increase since the inauguration of the association.

Domestic manufactures and dairy products have been the subject of W. Frey's reorganization. By day and night he has been working for the benefit of his dream by night, and a striking increase in the entries has been brought about. The departments are most practical, and too much stress cannot be laid on the necessity for encouraging the requirements of the poultry world, and is more or less in touch with poultry people. As director in charge of the exhibition, he has been able to do a great deal of work for the exhibition, and to Alberta, in encouraging the industry of poultry raising, and bettering its position.

The new Bonnie Doon (South side) fire hall, is nearing completion. The equipment for the fire hall is available for the present south side fire hall, which one month has been a double station with double the equipment and double staff. It is planned to place at the south side main hall additional motor equipment, when the horse-drawn apparatus is moved to the new Bonnie Doon building.

been exhibiting stock at all the fairs in western Canada, and was at the Edmonton exhibition, remarking on the exhibit in the department of women's progressive farm exhibits, and the best display of women's work, both in quantity and quality, he has ever seen. He has not only visited this department at the Toronto exhibition, as well as the fair of western Canada, but he has been able to secure large samples with that of the Edmonton exhibition of 1914.

Dr. Deyan spoke with enthusiasm of the apparent growth of the Edmonton exhibition, and the progress of Alberta, and was at the Edmonton exhibition, remarking on the exhibit in the department of women's progressive farm exhibits, and the best display of women's work, both in quantity and quality, he has ever seen. He has not only visited this department at the Toronto exhibition, as well as the fair of western Canada, but he has been able to secure large samples with that of the Edmonton exhibition of 1914.

All told, the Exhibition association has reason to be proud of its directors and the progress of the exhibition. The war cloud hanging over the land, and the people of Alberta have shown their unflinching interest in the undertakings of the association, and by sending their personal support to the efforts of the association, have given the final assistance necessary to make an exhibition of this kind a success.

The Blue and Gold of the Edmonton Exhibition association has again been carried to victory!
